**General Comments**

CCO 314, SAMPLING AND TESTING A354 GRADE BD MATERIAL:

The Townsend Test (Test IV) for TR's 18 & 19 setup work is ongoing. There is no work in the field on this operation today by ABF. VGO is in the Bay Area (but not on site) and is periodically remotely checking the eDAQ to look for issues with the instrumentation - monitor the data for issues - looking for data drift. ABF is working in the field today (but not at the Pier 7 warehouse area) on other operations this Sunday - ABF is working on the maintenance traveler. The other operations are not covered by this diary.
